RENOVATION & DESIGN

WELCOME

WHERE IDEAS BECOME HOME.

A Note from us

We're so happy you found us!

We know that creating or transforming a space is about much more than choosing finishes or arranging furniture. It's about imagining how you want to live, work, gather, and feel within it and trusting someone to help bring that vision to life.

At Wren & Company, we bring together thoughtful design and a clear, well-supported process. Emera leads the creative vision and design of each space, while Katie helps guide the business, communication, and experience surrounding the work. Together, we want you to feel inspired by the possibilities, confident in the decisions being made, and cared for throughout the process.

We believe the best spaces are created through collaboration. We'll listen closely, ask thoughtful questions, and help turn your ideas into a home or space that feels beautiful, functional, and genuinely yours.

Thank you for inviting us into this part of your story. We're excited to learn more about you and what we may create together.

EMERA CUNNINGHAM

CO-FOUNDER
DESIGN DIRECTOR

Emera Cunningham is the Co-Founder and Principal Interior Designer of Wren & Company. With a passion for transforming the way people experience their homes, she specializes in residential renovations, custom homes, and thoughtfully designed interiors that balance beauty, function, and everyday living.

Known for her highly detailed and organized approach, Emera excels at guiding homeowners through the complexities of renovations and new construction. From developing functional floor plans and construction drawings to selecting finishes, millwork, lighting, and furnishings, she brings clarity and confidence to every stage of the design process. Her ability to anticipate challenges before they arise and thoughtfully coordinate every detail helps projects move smoothly while creating homes that feel cohesive and deeply personal.

KATIE OSMOND

CO-FOUNDER
OPERATIONS DIRECTOR

Katie Osmond is the Co-Founder of Wren & Company, where she leads business operations, client experience, and strategic growth. Passionate about building meaningful relationships and creating exceptional experiences, Katie is dedicated to ensuring every client feels supported, informed, and confident from the first conversation through project completion.

With a natural ability to bring structure, organization, and thoughtful communication to every stage of the process, Katie oversees the systems, partnerships, and day-to-day operations that keep projects running smoothly behind the scenes. She believes that great design is about more than the finished space. It is about creating an experience that feels collaborative, enjoyable, and rooted in trust.

OUR ADVANTAGE

We are closely connected to the myriad of trades and suppliers required to plan, manage, & execute your projects. Our team handles almost every aspect of each project in-house, which means less moving parts for our clients.

Working with us

THE FRAMEWORK FOR OUR PROJECTS

1. ONBOARDING + DESIGN DISCOVERY

Every successful project begins with understanding the people who will live, work, and gather within the space. During this phase, we take the time to learn about your goals, lifestyle, functional needs, design preferences, investment level, and long-term vision for the project.

Through consultations, site measurements, inspiration gathering, and collaborative discussions, we establish a clear project roadmap and ensure every design decision moving forward is grounded in purpose. This foundation allows us to create spaces that are not only beautiful, but thoughtfully designed around real life.

3. FINISHES + DETAILS

Once the overall design direction has been established, we begin layering in the details that bring the project to life.

Cabinetry, countertops, plumbing fixtures, lighting, flooring, tile, paint colours, hardware, millwork details, interior finishes, and architectural elements are thoughtfully selected and coordinated to create a cohesive and highly personalized design. Every material is carefully considered for aesthetics, durability, functionality, and how it contributes to the overall experience of the space.

2. DESIGN DEVELOPMENT & PROPOSAL

With a strong foundation in place, we begin transforming ideas into a clear design direction. This phase focuses on space planning, functionality, layout development, and the overall vision for the project.

We explore how your spaces can function more effectively while enhancing flow, comfort, and daily living. Through concept plans, design studies, and visual inspiration, we refine the project direction and ensure every decision supports both form and function before moving into detailed selections.

4. CONSTRUCTION DOCUMENTATION

Great design requires clear communication. During this phase, all approved design decisions are translated into detailed drawings, specifications, schedules, and documentation.

This comprehensive package provides contractors, trades, suppliers, and consultants with the information required to accurately price, coordinate, permit, and execute the project. Our goal is to eliminate uncertainty, reduce costly surprises, and ensure everyone involved is working from the same vision.

5. FURNITURE + DÉCOR SELECTIONS

A well-designed home extends beyond the construction phase. For projects that include furnishings, we curate every layer that transforms a house into a home.

Furniture layouts, rugs, decorative lighting, window coverings, artwork, accessories, and styling elements are carefully selected to complement the architectural design and support the way you live. Each piece is chosen with intention, creating spaces that feel complete, comfortable, and uniquely yours.

7. PROCUREMENT + PROJECT CLOSEOUT

As the project nears completion, we coordinate the final details that bring everything together.

Furnishings, fixtures, and approved products are ordered, tracked, and coordinated as required. Final walkthroughs are conducted, outstanding items are reviewed, and finishing touches are completed to ensure the space reflects the quality and vision established from the beginning.

The result is a thoughtfully designed environment that is functional, timeless, and ready to be enjoyed for years to come.

6. CONSTRUCTION

With the design finalized and documentation complete, construction begins.

Throughout this phase, we remain available to collaborate with contractors, trades, suppliers, and consultants to help maintain design integrity and support the successful execution of the project. Whether answering design questions, reviewing details, or providing clarification on selections and drawings, our role is to help ensure the original vision is carried through from paper to reality.
